The Survey's mission is to study Arkansas' past, to preserve and manage information about archeological sites, and to share what we learn with the people of Arkansas. Contact your nearest Research Station for more information.

The Survey encourages interested individuals and groups to list local historic cemeteries in the state site files. This will help with research and preservation. Site forms are available on our website:

[www.uark.edu/campus-resources/archinfo/forms.html](http://www.uark.edu/campus-resources/archinfo/forms.html)

Contact the nearest Survey Research Station or the Coordinating Office in Fayetteville for advice on filling out and submitting the forms.
