

Note: Spear points are the sharpened point of a spear. They are made of stone and used for hunting. A scraper is a tool that is used to scrape the hide off of a deer or other animal. Knives were used to cut up and butcher a deer or other animals.

5. Look at Excavation Unit B. List the artifacts that Dr. Boxwood found in the **Artifacts (Objects)** column of the table.

6. Write the context (what is it near) of each artifact in the **Context** column.

7. What does the context of each artifact tell you about its use? Write your answer in the **Use or Function** column.
